

AT A GLANCE

What we do

Crowdpolicy has built on open technologies and data, as well as open innovation processes, developing applications and platforms in the fintech, govtech and open innovation sectors (hackathons, accelerators, etc.). This mentality still permeates the operation of the business, with the result that many parts of the technology produced are openly disseminated in order to generate wider added value.

Experience in EU Projects

BAUHAUS4MED

Interreg
Euro-MED

Co-funded by
the European Union

[BAUHAUS4MED](#) - Interreg EUROMED

The Project will test environmentally sustainable, socially fair and aesthetically appealing solutions using architecture, design and culture as core resources for improving green living areas. Thus, it will act as a test-bed for the New European Bauhaus (NEB), providing guidance to other Euro-MED cities and regions with ambition going beyond current green policies.

Crowdpolicy participates as a crowdsourcing expert and also has the role of Communication Leader Partner.

Experience in EU Projects

BLUE CROWDFUNDING - Interreg MED

Crowdpolicy joined the project, as **crowdfunding experts**, aiming at Capacity Building of BLUE Economy Stakeholders.

Experience in EU Projects

[PROMETHEUS - EIT HEI Initiative](#)

An initiative of Universities, Research Centres and Enterprises from Greece, Netherlands, Italy, Romania and North Macedonia, with a vision to **develop and share their innovation and entrepreneurship support capabilities in the area of digital transformation** related to circular economy, climate change and sustainable development, funded under EIT HEI Initiative.

Crowdpolicy led the dissemination activities and also had a crucial role in the development of digital tools, such as the Entrepreneurship Acceleration Platform

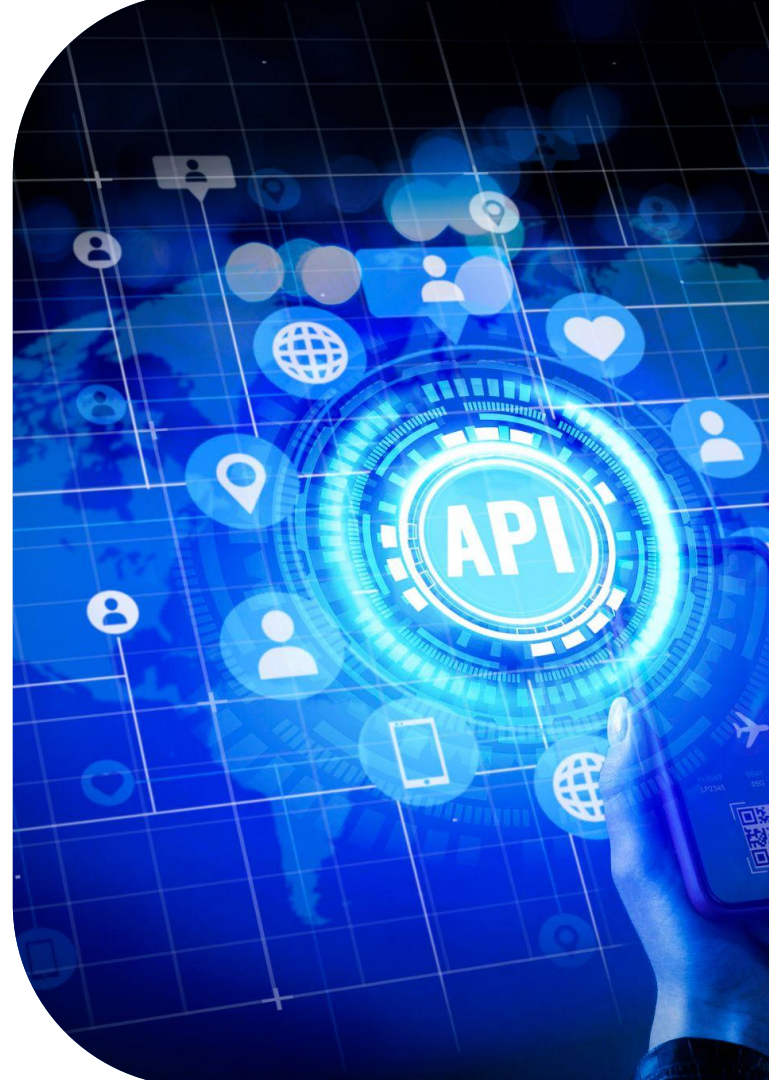

Experience on EU Projects

[Infiniteth - Horizon 2020](#)

A H2020 Flagship project on Tailored IoT & BigData Sandboxes and Testbeds for Smart, Autonomous and Personalized Services in the European Finance and Insurance Services Ecosystem.

Crowdpolicy participated predominantly through the development of digital tools such as APIs, sandboxes & KYC applications and specialized workshops aiming at ecosystem - community activation.

Experience on EU Projects

[EntrePubl - Erasmus+](#)

ENTREPUBL is an Erasmus+ funded project aimed at fostering digital literacy and an entrepreneurial mindset in public sector employees. It designs and develops an innovative training path for public servants, focusing on new digital practices and entrepreneurial thinking.

The project provides upskilling opportunities for VET trainers, strengthens the capacity of public servants to drive positive change, and leads to improved public services provision.
